Solid HOG that draws on some of the lesser-known European mythology.. Simple and clunky but somehow addictive.. How wrong is it for me to sexualize a cube girl?. amazing its epic riding is awesome same with sand its so realilistic its amazing i love it as you have seen i have played 8 hours its just 10.5/10 i would reccomend this all day. This game is not even ready for early access.. Pretty straightforward as far as adventure games go, but the voice acting and characters were all great. I liked not having to deal with the inventory, and the notebook system does a pretty good job (minus one point at the very end).

I really liked the story in general, but regrettably it has three named gay NPCs and decides to kill two of them, and your choices can influence the third negatively, so you might want to skip unless you're ok with dealing with that.

I really enjoyed it though, and recommend getting it if you want to play out a detective story- too few of those to go around these days.. yet another mindless piece of well you know! if you do get this game only do it for the game cards at least you can get something back besides an empty wallet and a piece of well you know!. GAME: The best Trump-voter simulator ever made. Grab a copy, some moonshine, your MAKE 'MURICA GREAT AGAIN cap, your cousins ♥♥♥ and get ready for some killbilly action. Rating: 10/10 braincells.

PORT: This Steam port is beyond broken. No addons, graphics flashing, can't change controls, no original music. This is totally lazy. Worth .99c not \$9.99. Avoid. Rating: 01/10 dead racoons

. This is an amazing route. The scenarios are very well made and the scenery is beautiful. I'd recommend this to those who enjoy slow and short routes and to those who want to have a break from high-speed routes.

P.S. It's a pity it only includes a part of the route.

Didn't last too long on this one, the motion sickness got me before I could enjoy more.. I am really disappointed in this game. For the first time you get scared of the bear and that's it... Every time the screen goes dark you know what's coming for you. There is no need for me to continue playing this game. Please change this and will have a look at this maybe later. Thanks a lot. @Vote No for now. GTR2 is Awesome Racing Game!

No Regret!!

Rather dull. At least it is free.. Wondefully challenging, addicting and FUN game.! You'll find yourself completing level after level until your fingers hurt, but you just can't seem to stop yourself. Definitely recommend a buy! Posting for Gaming Cypher. Funny, but hard!!
